Attached are EPA's mark-ups to the workplan, for your review. Please review ASAP and let me know if you need to discuss anything. Budget looks good. We will fund Anaconda portion with 65k now and the rest in federal FY18 1st Qtr (assuming we receive requested funds). Similarly, for Carson we can fund 122k now and the remainder in FY18 1st Qtr assuming we can obtain those additional funds. Thanks!

Note that my understanding from the communications is that Leviathon will not be added to this MSCA, so I removed those parts of the workplan.
